150% through  
Year Round Pell

## Year-Round Pell Examples

Please note these examples are for demonstration purposes only. Pell Grant award amounts vary from student to student based on their Expected Family Contribution (EFC), a student's program of study, and are contingent on remaining in Satisfactory Academic Progress (SAP). Please visit the Wallace Community College Financial Aid Department to determine your status!

### 1. Full-Time Fall & Spring

If a student receives full-time Pell disbursements in both the fall and spring terms they have used 100% of their 2017-18 Pell and will need to follow Year-Round Pell guidelines to receive Summer '18 Pell. These students are required to enroll in a minimum of six credit/Title IV hours to receive Pell for Summer '18.

### 2. Part-Time Fall or Spring

If a student receives part-time Pell disbursements for Fall or Spring terms, they will first use the remainder of their 2017-18 Pell. After all yearly Pell funds are used, students will then pull from Year-Round Pell funds. Example: student receives a full-time disbursement in Fall and a  $\frac{3}{4}$  time disbursement in Spring. This student could still be eligible for a full-time disbursement for Summer '18. The student will first pull the remainder of their 2017-18 Pell and then access their Year-Round Pell. Anytime a student pulls funds from Year-Round Pell, they must enroll in a minimum of six credit/Title IV hours.

### 3. Didn't Attend Fall or Spring

If a student did not attend Fall and/or Spring semester they will simply use the remainder of their 2017-18 Pell. These students are not required to enroll in a minimum of six credit/Title IV hours to receive Pell because they are not pulling funds from Year-Round Pell.
