Plumbers Apprentices Course

**WALLACE
COMMUNITY
COLLEGE**

ABOUT THE PLUMBERS APPRENTICE PROGRAM...

The plumbing career field remains a high-growth employment sector for commercial construction, residential construction, and service/maintenance related job opportunities.

The Plumbing Curriculum Committee, charged by The State of Alabama Plumbing and Gas Fitters Board, has developed an eight-month Plumbers Apprentice Career Track designed for entry level plumbers. In providing training for entry level plumbers, the committee identified the National Center for Construction Education & Research (NCCER) Level One Curriculum consisting of 144 hours.

After completing all three modules, one year will be waived from the two (2) year apprenticeship requirement.

Wallace Community College affords equal opportunity to all employees and applicants for admission or employment regardless of race, gender, religion, national origin, age, or disability. WCC will make reasonable accommodations for persons with disabilities.
