DISABILITY SUPPORT SERVICES (DSS)

Disability Support Services provides reasonable accommodations and services for qualified students with documented disabilities.

What is a disability? What does DSS do?

The Americans with Disabilities Act, 1990, defines a disability as a “mental or physical impairment which substantially limits one or more major life activities.” Walking, eating, talking, breathing, writing, listening, and learning are examples of major life activities. If you have a documented impairment, you may be entitled to certain accommodations under the ADA.

What are “reasonable accommodations and services”?

Reasonable accommodations and services may include priority registration, extra time on tests, special seating arrangements, assistance with class notes, and/or alternate format materials (such as tape recorders, large print, or other adaptive technology) which meet the individual needs of the person with the disability.

Notes to the Faculty:

- Faculty teaching courses that do not follow the standard day/time scheduling scheme will determine test dates and times within the testing period that best complement the standard schedule.
- Faculty members in technical, nursing, and allied health programs whose courses combine theory, lab, and clinical meetings should use the theory meeting time to schedule their final exams.
- Faculty members teaching distance education classes and those who offer traditional course final exams via Wallace Online will make arrangements for computer labs for their exams.
- Faculty should remember that traditional courses following the standard day/time scheduling scheme take priority over distance education courses. Distance education courses must make allowances in scheduling to accommodate students' traditional course final exam schedules.
