I'M DOING
WORK THAT
MATTERS.”

“I HAVE A
REAL FUTURE
NOW.”

**ELECTRICAL LINeworking
OFFERS HIGH PAY, GOOD
BENEFITS AND GREAT JOBS!**

Becoming an Electrical Lineworker can get you moving up in life almost as fast as a bucket truck takes a lineworker up a utility pole. That's because the doors of opportunity are open wide.

Today, more lineworkers than ever are advancing toward retirement. This is leaving fewer and fewer lineworkers to fill a growing number of positions opening up

at power companies and utility contracting firms in Alabama and across the country. Employers are willing to pay well to get the skilled lineworkers they need! And they offer good medical and retirement benefits, too.

If you're a high school graduate or have your GED, start powering up your future today. Become a Pre-apprentice Electrical Lineworker. The course takes just seven weeks to complete. Classes start soon, but space is limited. So hurry and get full details.
