Dothan, Ala. — The Theatre Department of Wallace Community College presented the Wiregrass Children's Home with a check for funds raised at a recent benefit performance. In March, the College presented *Warped: A Musical Journey Through Time*, an original student musical production. Toni Byrd accepted the \$3,875.89 check on behalf of the Children's Home during a College-sponsored cast party for faculty and students of the Fine Arts Theatre Department.

The event, held in Cherry Hall, featured an unveiling of performance banners installed in the theatre lobby. Dr. Linda C. Young, president, Wallace Community College, hailed the growth and giving spirit of the Fine Arts Theatre Division. "This group of students and faculty embraced the opportunity to give back to such a worthy cause. We applaud your talents and your generous spirits!" she said. Mayor Mike Schmitz congratulated the group on their gift and cited the impact of the Wiregrass Children's Home in the area.
