

EMERGENCY MEDICAL SERVICES

HEALTH RECORDS POLICY

Validation and documentation of required health records must be received by all students enrolled in an allied health program. **Students who fail to submit required records will not be allowed to continue in the program.** *If you have questions concerning this process, contact Shannon McNabb at 334-556-2388.*

All students are required to have a physical examination at the student's expense. The physical examination / health requirements protect the student by identifying any potential or real health problems that may be exacerbated by the demands of the clinical portion of the program.

Health professions are strenuous, both physically and psychologically. The student's ability to handle these demands must be established. It is also imperative that students do not expose clients or agency personnel to communicable disease, or risk their safety due to the inability to handle the physical or psychological stress of client care.

NOTE: Updates to health records such as TB or CPR may be required while a student is enrolled in the program. **Any updates will be due at the beginning of the semester in which they expire.** *For example, a TB skin test is required annually. If it expires in March of the spring semester, the update will be due no later than the first week of class, in January.*

The following are required for ALL students:

1. **PHYSICAL EXAMINATION** – A **physical examination**, completed within the past year, is required for all new students. The physical must be signed by a licensed physician or nurse practitioner. The examination must be documented on the Program's **standardized health examination form** as required by The Alabama Community College System. New students and any student returning to an allied health program after an absence of one (1) year must submit current completed health forms.
2. **IMMUNIZATIONS / TITERS** – It is the STUDENT'S RESPONSIBILITY to keep all health records current. **Documentation of any required updates should be submitted to the allied health secretary as soon as possible.** The following are required:

Tetanus (Tdap) Vaccine

Students entering an allied health program must provide documentation of an **adult Tdap vaccine** (tetanus, diphtheria, and pertussis). If the documented Tdap vaccine is over ten (10) years old, documentation of a Td (tetanus and diphtheria) or Tdap booster that is less than ten (10) years old is also required. An update is required every ten (10) years.

TB Skin Test

A **two-step** TB Skin Test is required at the beginning of the program. This consists of one test followed by a second test 7-21 days later. The results cannot be more than four (4) weeks apart.

An annual one-step TB Skin Test is required each following year and is YOUR RESPONSIBILITY to provide to the allied health secretary when due.

If you have had a positive TB result, submit proof of that result as well as proof of a clear chest x-ray. Documentation of reason for chest x-ray instead of serum is required.

MMRV Titer

A MMRV - Measles, Mumps, Rubella (German Measles), and Varicella (Chicken Pox) titer is required to enter an allied health program.

If any results are negative or non-immune, the student must sign the *MMRV Waiver Form* and submit it with the negative or non-immune results. The student is advised to consult with a physician regarding precautions to prevent infection. Results must be within the past five (5) years.

Hepatitis B

A Hepatitis B titer is required to enter an allied health program. If the results are negative or non-immune, the student must sign the *Hepatitis B Waiver Form* to be submitted with these results. The student is advised to consult with a physician regarding precautions to prevent infection. Results must be within the past five (5) years.

3. CONTINUING HEALTH STATUS – It is a STUDENT’S RESPONSIBILITY to notify the program faculty of any changes in his/her health status, i.e. pregnancy, surgery, injuries, etc. Additional examinations from a health care provider, with documentation of results, may be required by an instructor for any changes in a student’s health status.
4. PROFESSIONAL LIABILITY INSURANCE – Students in an allied health program are required to purchase professional liability insurance (malpractice insurance) through the College, each semester they enroll in an allied health course. This fee is added to your course registration as **NUR000** and is to be paid at registration each applicable semester.
5. HEALTH INSURANCE – Wallace Community College and the allied health programs do not provide health insurance coverage for students. Students are responsible for costs incurred as a result of an accident/injury in the clinical or college laboratory. This may include follow-up testing and/or treatment mandated by the program/clinical agency. Students are not entitled to any Workmen’s Compensation benefits from agencies. Health insurance coverage is strongly recommended.

Wallace Community College – Emergency Medical Services HEALTH RECORD FORM

Name: _____ Student ID #: _____
(Please Print)

Address: _____ Contact Number: _____

Emergency Contact Person: _____ Contact Number: _____

INSTRUCTIONS: A physician, nurse practitioner, or physician's assistant must complete and sign this form. . Attach copies of lab results documenting Tdap vaccination (and booster if applicable). MMRV and Hepatitis B titer results when submitting this form to EMS Program personnel or Program Secretary If TB chest x-ray is required, documentation of reason for chest x-ray instead of serum is required.

Requirements	
<p>Tetanus Vaccine (tetanus, diphtheria, pertussis) <i>All students must have a documented Tdap vaccine.</i></p>	<p>Date Administered: ____ - ____ - ____</p>

ESSENTIAL FUNCTIONS FORM
Wallace Community College

Emergency Medical Services

The Alabama Community College System endorses the Americans' with Disabilities Act. In accordance with College policy, when requested, reasonable accommodations may be provided for individuals with disabilities.

Physical, cognitive, psychomotor, affective and social abilities are required in unique combinations to provide safe and effective respiratory therapist care. The applicant/student must be able to meet the essential functions with or without reasonable accommodations throughout the program of learning. Admission, progression and graduation are contingent upon one's ability to demonstrate the essential functions delineated for the emergency medical services program with or without reasonable accommodations. The emergency medical services program and/or its affiliated clinical agencies may identify additional essential functions. The emergency medical services program reserves the right to amend the essential functions as deemed necessary.

In order to be admitted and to progress in the emergency medical services program one must possess a functional level of ability to perform the duties required of an EMT. Admission or progression may be denied if a student is unable to demonstrate the essential functions with or without reasonable accommodations.

The essential functions delineated are those deemed necessary for the emergency medical services program. No representation regarding industrial standards is implied. Similarly, any reasonable accommodations provided will be determined and applied to the respective emergency medical services program and may vary from reasonable accommodations made by healthcare employers.

The essential functions delineated below are necessary for emergency medical services program admission, progression and graduation and for the provision of safe and effective emergency medical services care. The essential functions include but are not limited to the ability to:

EMERGENCY MEDICAL SERVICES
Program Essential Functions

Due to the requirements of the State of Alabama for EMS Licensure, no student will be admitted to any Wallace Community College Emergency Medical Services course who cannot meet the essential functions. The EMS student must:

1. have the physical agility to walk, climb, crawl, bend, push, pull, or lift and balance over less than ideal terrain;
2. have good physical stamina, endurance, which would not be adversely affected by having to lift, carry, and balance at times, in excess of 125 pounds (250 pounds with assistance);
3. see different color spectrums;
4. have good eye-hand coordination and manual dexterity to manipulate equipment, instrumentation and medications;
5. be able to send and receive verbal messages as well as operate appropriately the communication equipment of current technology;
6. be able to collect facts and to organize data accurately, to communicate clearly both orally and in writing in the English language (at the ninth grade reading level or higher)
7. be able to make good judgment decisions and exhibit problem solving skills under stressful situations;
8. be able to make good judgment decisions and exhibit problem solving skills under stressful situation;
9. be attentive to detail and be aware of standards and rules that govern practice; and
10. implement therapies based upon mathematical calculation (at the ninth grade level or higher);
11. possess emotional stability to be able to perform duties in life-or-death situations and in potentially dangerous social situations, including responding to calls in districts known to have high crime rates;
12. be able to handle stress and work well as part of a team;
13. be oriented to reality and not be mentally impaired by mind altering substances;
14. not be addicted to drugs or alcohol;
15. be able to work shifts of 24 hours in length;
16. be able to tolerate being exposed to extremes in the environment including variable aspects of weather, hazardous fumes, and noise, and
17. possess eyesight in a minimum of one eye correctable to 20/20 vision and be able to determine directions, according to a map; and students who desire to drive an ambulance must possess approximately 180 degrees peripheral vision capacity, must possess a valid Alabama driver's license (if a resident of another state is employed in Alabama); and must be able to safely and competently operate a motor vehicle in accordance with state law
