

Wallace - COVID-19 Update 7-27-20

Dothan, Ala. – A Wallace-Dothan employee on the Wallace Campus has tested positive for COVID-19. The College is following the System Office's protocol regarding this COVID-19 positive employee. The employee is self-quarantining for fourteen days. All employees and students with possible contact have been notified.

The College routinely sanitizes all facilities and will continue to take all necessary precautions to ensure a safe and healthy environment. As an extra measure, the College focused additional sanitation measures in areas where the employee works.

Per guidance from the Chancellor, we will place this information on our COVID-19 webpage.
