Footnotes

\*  
(Note #1) This is a Publisher-Created "Custom" book for Wallace Community College, meaning that the instructors of this course went to the Publisher, chose

a specific book, and had content either removed or added. This book, as it is set up, can only be found at Wallace.

\*\*  
(Note #2)

This is a Wallace-Created book and is printed exclusively on the Wallace Campus in our Print Shop.

\*\*\*  
(Note #3)

There is no physical book for this course, but, you would purchase an access code either from the Bookstore or from the Publisher's website. The Bookstore cannot help in purchasing from other sources.

\*\*\*\*  
(Note #4)

All of our ACC, ACT, BUS, CRJ, and OAD classes allow students to use Cengage Unlimited. Cengage Unlimited is an access code that allows the buyer to have digital access to nearly everything that Cengage publishes. One purchased, the student will create an account, log in, and choose the individual books that the instructor uses. The student will then add those books to his/her dashboard, so that, when he/she logs in later, they will be there for viewing. There are no physical books. There are three lengths of this access code that the Bookstore sells:  
1 semester for \$119.99  
1 year for \$179.99  
2 years for \$239.99  
We recommend that the student talks to the instructor about which access code to purchase. If the student is starting a program, and, plans to take all of those classes here, we normally recommend the two year code, as it will cover that student for not only the current semester, but upcoming ones as well.

\*\*\*\*\*  
(Note #5)

Some of our CIS classes have migrated over to using Cengage Unlimited, which is an access code to nearly everything that Cengage publishes. There are three lengths of this access code that the Bookstore sells:  
1 semester for \$119.99  
1 year for \$179.99  
2 years for \$239.99  
If the student plans on taking any of these classes in a subsequent semester, we'd recommend buying an appropriate length of access code: CIS 207, CIS 208, CIS 212, CIS 251, CIS 282. (CIS 282 requires an additional access code as well.)

\*\*\*\*\*  
(Note #6)

(Note #8)

Our Math Classes, MTH 098-113, utilize a program called  
ALEKS. Rather than purchasing a book, a student will buy  
an access code where he/she will do all of their assignments,  
quizzes, and exams. We sell two different lengths  
of access, and, it is up to the student to determine  
which one may be needed. The best scenario would be  
to contact the instructor and, based on the degree plan,  
the student could purchase the correct code.  
We sell an 18 week code for \$109 and a 52 week code for  
\$144. The majority of the students need to purchase a  
52 week access code, because they will need at least  
one more math class (MTH098 to MTH100, for instance), and, a 52-week code will  
cover additional courses, if they use ALEKS.
